TAP FEE: \$300.00: Plus any and all costs of constructing and installing said connection including, but not limited to, the cost of the water meter, fittings, pipe, and retapping of the water line. Prior to connecting, the property owner or the property owner's contractor must submit a detailed proposal to the Borough showing all work to be completed and all materials to be installed. This proposal must be approved by the Borough and the tap-in fee must be paid in full prior to the commencement of any construction or installation work. The Tionesta Borough Public Works Director has the right to inspect and/or stop any construction or installation at any time due to concerns over the construction, installation, materials, or any other part of the connection process. All connections shall be inspected by the Borough prior to being covered. (Ord. 269)

If a sprinkler system or other fire protection system is used or installed in any building located within the Borough, whether that system is installed by choice of property owner or whether it is required by law, the property owner shall be responsible for the cost of any and all water used in or by the fire protection system as well as any and all costs associated with the installation of said system which costs may include, but shall not be limited to, the installation of a new service line, a new meter, the relocation of the main water line, any construction costs associated with the installation of the new lines and appurtenances including the costs of a road bore or any excavation, and all other costs related to the installation of the system. These requirements apply regardless of whether the structure is new construction or whether the use of a structure is changed which

necessitates the installation of a fire protection system. The Borough assumes no liability as an insurer of property or persons, and that by making water available for fire protection services, the Borough does not contemplate any special service, pressure, capacity, or facility other than that ordinarily provided in the normal operation of the water system. The Borough is exempt from any and all claims for injury or damage to persons and/or property by reason of fire or water or the failure to supply water, pressure, or capacity. (Ord. 269)
